Ultra Recliner (FA)

Upright Ultra Recliner (FAU)

ADJUSTABLE RECLINERS FOR REST AND RELAXATION

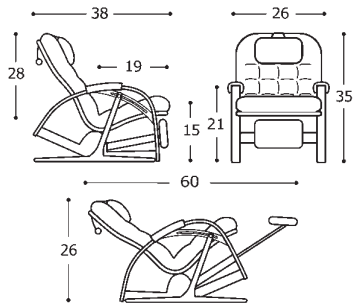

Whether you want to rest in the reclined position, or find the perfect angle for reading or home theater, the Brigger Ultra Recliner lets you do it all. You can control your ascent and descent with the help of levers on both sides, then lock the chair at any angle with a turn of the knobs. The Ultra Recliner features an adjustable tilting footrest that tucks away underneath the seat when not in use. It also comes with Handle Levers, so you can grip securely while maneuvering.

The Ultra Recliner adds adjustability to the classic FlipFlop. You can stop at any intermediate position to find your favorite resting place. Or loosen the knobs and move easily from front to back using your arms and/or legs.

The Upright Ultra Recliner is for those who like to sit with a straighter posture. Flip back into the stress-less position to relax your body and mind. Choose the Extra-High Back model (FAUX) if you are over 5'10".

SIZE & FIT OPTIONS
